Seeking Remote Senior Roles: Business Analyst | Operations Analyst | Compliance Analyst | QA Analyst

QUICK INTRO

Senior Operations and Compliance Analyst with 20+ years of experience in government, consulting, and private-sector operations. Known for keeping high-volume, regulated workflows on track, improving data integrity, and producing audit-ready reporting. Brings a practical approach to process improvement and workflow control, supported by Advanced Excel, SQL, Python, Office 365, and SharePoint.

VALUE HIGHLIGHTS

- Processed 7,500+ Medicaid cases with 98%+ audit accuracy under strict benchmarks.
- Recovered a stalled \$650K federal contract by resolving compliance gaps and rewriting it in 3 weeks.
- Improved workflow and version control processes in ongoing operations work, reducing rework by 20%.
- Served as SME/Lead in eligibility operations, training staff on complex cases in a regulated environment.

CORE STRENGTHS

- Process improvement and workflow standardization
- Compliance support, QA, and audit readiness
- Data validation, reporting accuracy, and error reduction
- SOP development, documentation, and onboarding support
- Advanced Excel, SQL, Python, Office 365, SharePoint

GITHUB PROJECTS

- Eligibility Case Review Tracker: Python and Excel validation tool for missing or invalid case fields.
- Compliance Audit Dashboard: SQL framework for identifying audit-style errors across relational datasets.
- SOP Generator: Python tool for standardized documentation and repeatable workflows.
- Data Validation Tool: Python script for detecting missing values, duplicates, and formatting errors.

TOOLS AND TRAINING

- Advanced Excel, SharePoint, Office 365, SQL, Python used in data validation and workflow support.
 - Google Prompting Essentials | Coursera | Credential ID: I638SSKWQ210 | May 2025
- Applied: Context Engineering, Data Literacy, Prompt Patterns, Data Ethics, and Email Automation
- AWS Cloud Foundations (COM2163 Coursework) | Honolulu CC - PCATT | Instructor: T. Chong | Feb 2025
- Covered: Cloud Governance, Security & Compliance, Shared Responsibility Model, and Data Architecture

PEER FEEDBACK (see *LinkedIn Recommendations*)

- Recognized for detail, resourcefulness, workflow improvement, and collaborative leadership.
- Trusted for accuracy, reliability, and a positive team presence.
